Town Improvements

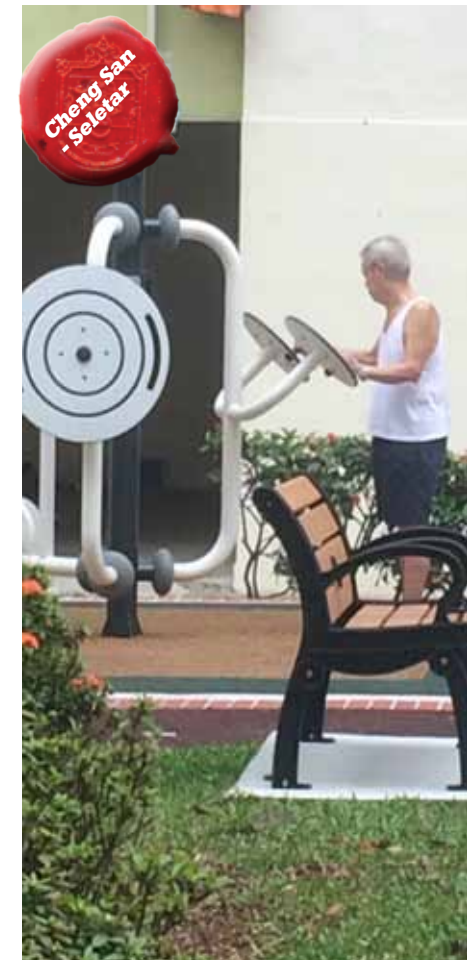

A tensile membrane shelter was recently completed at Punggol South Park. It shelters a multi-purpose hardcourt with seating around the perimeter.

After months of work, the new children's playground next to Jubilee Square has been completed.

Under the Neighbourhood Renewal Programme, the RC corner at Block 463 Ang Mo Kio Ave 10 was repainted, and new tables and seating installed.

A new elderly fitness corner was installed at Block 570 Ang Mo Kio Ave 3.

Better lighting

Recent improvements to the multi-storey car park at Block 546A Serangoon North Avenue 3 replaced all the lighting within the building with LED lights. LEDs are more energy efficient and longer lasting – just one of the many things the Town Council does to reduce expenses and increase efficiency.

New facilities for play and fitness

By the end of the year, Sengkang West will enjoy a new playground and fitness equipment at Blocks 312A and 312B Anchorvale Lane. These improvements are part of the Town Council's ongoing Community Improvement Projects – better facilities to better serve residents, catered to what they want!

New playgrounds and fitness equipment at Saraca and Tamarind Roads

After work commenced in June, new facilities for play and fitness at these roads will be completed by the end of October. These two projects are part of NParks' island-wide upgrading projects. The equipment to be installed was selected by the Neighbourhood Committees, after they reviewed the three proposals.

Better footing

A footpath that has become well utilized by residents in Sengkang and Buangkok was constructed at the end of September to give pedestrians better accessibility and safety. This footpath links residents from Fernvale to Gerald Drive for a shorter journey by foot."

If the PSI reaches over 100, cleaners are required to put on their masks according to the Haze Management Program.

A volunteer teaching residents the proper way to put on their masks.

Helping the elderly cope with the haze

Once the haze hit again, grassroots leaders and volunteers sprang into action to keep the elderly in the town safe. Led by our advisors, they distributed N95 masks to seniors – both door-to-door and through the Senior Activity Centres in the town. Prime Minister Lee Hsien Loong personally distributed a hundred masks in Teck Ghee.

The N95 mask is the only mask

that provides protection against PM 2.5 pollutant particles in the air – but only if worn correctly. Volunteers also conducted demonstrations on how to wear the mask for proper protection.

A total of some 29,000 masks and 6,000 micro-ventilators have been distributed across Singapore. The Town Council has also put into place its Haze Management Programme to look after its cleaners.

Behind the scenes of AMK-SKW 2.0

A lot of work went into the making of Ang Mo Kio - Sengkang West 2.0 – and a lot of that work was done by the people who live in the town!

Town councilors and residents were

interviewed in the making of the plan. They gave their thoughts on what had been done in the last five years, and on what has been planned for the next five years. This is an exercise done every five years, but it

was extra special for the participants this year – they were also getting a say in the book to commemorate SG50.

For your voices, and your time spent in making the town better – thank you!

Ci Yuan CC Opening

With a clinic, a senior care centre, a gym and facilities for arts and enrichment, the new Ci Yuan CC has it all. Of course, it also introduces a new place to eat for the residents of

Hougang Avenue 9 – it comes with a food centre as well!

At its recent grand opening, the advisors of the town, together with Prime Minister Lee Hsien Loong,

took part in a smattering of the activities the CC has to offer, including making mooncakes at the culinary studio, and placing new plants at the butterfly garden.

Compliments

I am a resident of Blk 448A Sengkang West Way and I walk the estate frequently. This block, including the park, is properly cleaned and maintained. The credit must go to the cleaners behind the scenes. In particular, I wish to express my appreciation to Mr Farhad and Mr Baccu, both very hardworking workers. I often see Mr Farhad cycling everywhere to make sure things are in order. As for Mr Baccu, I see him cleaning up the park, clearing dead leaves and even using a ladder in his work. My thanks to them.

Resident of Sengkang West*

Spreading knowledge on saving energy

The Town Council's collaboration with students from CHIJ St Nicholas Girls' School has reached out to households across the town to spread the message of energy conservation. It was rewarding for both the households, and the students. Here's what some of the girls had to say!

"This outreach is very interesting as it help to boost our confidence level in talking to residents. The sharing part to the residents benefits them by teaching them the steps to conserve energy." - Jaena Sim

"It is definitely an eye-opener for me as we did not do such door-to-door outreach before. With this, I learn how to communicate and vice versa, the residents also learn on the tips to save energy." - Sarah Tan

Working together for better communication...

A resident had recently sent feedback that his family was very impressed with the speed the Town Council had responded to the issue he raised on having updates of work done in the lifts.

The town council recently installed acrylic boards at lift lobbies and the inside of lifts for better visibility to update residents on improvement works, block washing or other relevant announcements by government agencies.

Adviser, Dr Koh Poh Koon, added that the notice boards in lifts acts as an update and newsflash to residents of any rectification of feedback received and their feedback are taken seriously.

With the completion of acrylic boards at the lift lobbies of 101 blocks in Yio Chu Kang, the town council targets to complete installation of acrylic notices inside the lifts by October 2015.

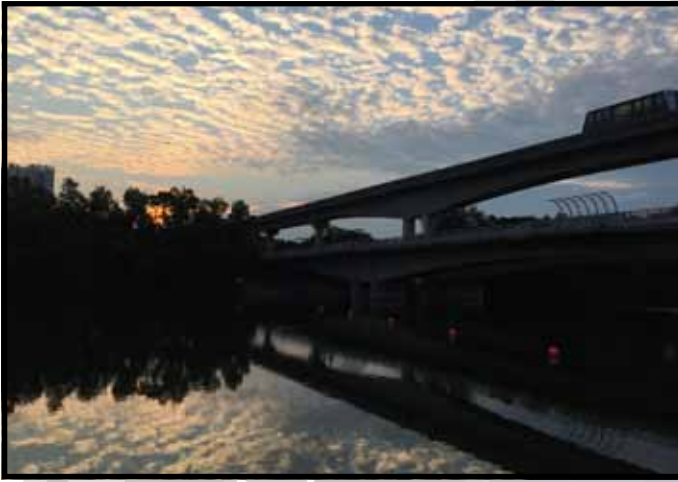

市镇理事会最近在电梯和电梯大堂安装通告亚克力板，向居民告知翻新工程的进度和组屋清洗时间表，大获居民赞赏。议员许宝琨医生表示，电梯里的告示板能让居民了解一些反馈问题，意见及建议等等。市镇理事会预计将在2015年10月前，将为在一百零一座电梯和电梯大堂安装通告亚克力板。

最近，大牌637宏茂桥6道已安装了防滑地板。由于该区居民提供好的的建议给市镇理事会，这些翻新的工作才有机会进行。如您有任何好的建议，欢迎联络我们！

Anti-slip flooring has also been installed at Block 637 Ang Mo Kio Avenue 6. These improvements are only possible with feedback from those living in the area – so if you have an improvement in mind, tell the Town Council!
