

On 30 August, Ang Mo Kio Town Council (AMKTC), together with NEA and our respective pest control contractors went to 10 blocks – from Blocks 436 to 445 at Ang Mo Kio Avenue 10 to carry out another Mozzie Wipeout exercise. To fight mosquito breeding, our pest control officers did misting around the blocks while AMKTC officers shared with residents the 5-step Mozzie Wipeout.

Together we can stop dengue!
