

Good Lift Practices 19 March 2019 Pro-Teach Schoolcare (Fernvale)

On 19 March 2019, about 150 students from Pro-Teach Schoolcare (Fernvale) made educational bookmarks to raise awareness on good lift practices. The students learnt more about how the community can play a part to make the lifts a pleasant ride for everyone.

“Brought awareness on the importance of lifts in our daily life, how to keep them clean and functional. Use the handmade bookmarks to spread the message of keeping good habits and ways to keep the lifts clean.”

- Tan Kai Sheng, Primary 5 student

“During the preparation for the activity, we saw the creativity of our teachers and students. They created many meaningful messages through words and pictures on how to keep the lift clean. These illustrations were made into templates for bookmark making. On the actual day of the activity, we saw even more creative ideas from the students who added colours and details to the template designs. Together with the presentation by Ms Heather, this activity has indeed met its purpose and made a deep impression with our students and teachers”

- Ms Aveline Cheong, Centre Supervisor
