

Promoting Good Community Behaviour

3 July 2019

Teck Ghee Primary School

We collaborated with 240 students from Teck Ghee Primary School to promote good community behaviour around the estate. The students worked with Ang Mo Kio Town Council to design educational posters on good lift behaviours. They shared their creative posters with residents from several blocks in the Teck Ghee neighbourhood. The students also helped to clean up the common areas around the estate.

“I have achieved every goal. Now, the estate looks clean and a lot of people asked what we were doing and we told them!”

- Student 1 (9+ years old)

“I would want to also have a poster not to litter so it will help keep the environment clean.”

- Student 3 (9+ years old)

“I learnt that a cleaner’s job is not easy.”

- Student 2 (9+years old)

“I enjoyed working well with my friends!”

- Student 4 (9+ years old)
